Public Spending in FY2005 for Selected Health and Social Programs in Michigan

Profile

Macomb County

Introduction:

The current debates over spending levels for public programs heightens the importance of understanding both the human impact of public social and health programs and the vital services they provide to low-income recipients. The citizens served by these programs range from the young through the elderly, and from families to individuals. Children are key beneficiaries of these programs either through direct services such as medical assistance, school food programs, or child care; or indirectly through payments to their families through such programs as the Family Independence Program, Energy Assistance Program, or Food Assistance Program. Many programs included in this report experienced increases in both the dollar value of the expenditures, and the number of people served compared to FY2004. The Food Assistance Program and the Energy Assistance Program each exceeded one million persons served for the first time.

It is also important to note that nearly every program included in this analysis brings federal dollars to the local community, providing a return of the tax dollars paid to the federal government.

The following statewide profile includes public spending totals for specific categories of social and health programs, defined below, and recipients for selected programs within the categories.

Definitions and Spending Categories included in the Profile:

Recipients are those persons who actually received a service or benefit from a program; **eligibles** are those persons who were eligible, but may or may not have received a benefit. For example, a person can be eligible for Medicaid, but may or may not have a claim paid on their behalf during the fiscal year. Recipients have not been totaled for the Income Assistance Total, Work Support Total or the Grand Total due to the likelihood of duplication between and among programs.

Nutrition Services include Food Assistance Program (formerly Food Stamp Program), School Lunch and Breakfast Programs, Summer Food Program, and the Women, Infants & Children (WIC) Program.

Emergency Services include State Emergency Relief, including Burials, and Energy Assistance Programs, including Heat, Electric and Energy-Related Home Repairs, and Home Heating Tax Credit for tax year 2004.

Health Care Services includes regular Medicaid payments, Disproportionate Share Hospital Payments, Title XIX funded mental health payments, the Title XIX component of Children's Special Health Care Services, Home Help and Personal Care Services payments, Adult Benefits Waiver Program payments, and MICHild Program payments.

Children's Services include Child Care Fund total expenditures (federal, state, and local) and Foster Care (Title IV-E funded and State Ward Board and Care).
